**PAST PERFORMANCE IS NOT A GUARANTEE OF FUTURE RESULTS**

Performance shown (after all fees and expenses) is the change in accumulation unit values from one period to the next and assumes that the change occurred at a steady rate over the time period indicated. No withdrawal charges were imposed.

Portfolio Inception Date is the date the portfolio commenced operations.

\*\*\* When the Portfolio and Investment Division inception dates are different, any performance period that includes all or a portion of the time between these dates is hypothetical. Hypothetical returns indicate what the performance would have been if the Investment Division had been a funding option as of the earlier date.

Please see important disclosures on Pages 3 and 4.

**Financial Freedom Account**
**STANDARDIZED PERFORMANCE (Required Disclosure)**

as of:

**6/30/2008**

The SEC requires that standardized performance figures be updated no more frequently than each calendar quarter. Investment Division Inception Date is the date the portfolio was first offered under the separate account that funds the product. The performance data below represents the standard calculation method which assumes that the contract was surrendered at the end of the period indicated. There are no withdrawal charges for this contract. Standardized returns are only calculated up to 10 years. Based on these assumptions, the Average Annual Total Returns are:

## EXPLANATIONS

Prospectuses for FFA, the Metropolitan Series Fund, the Met Investors Series Trust, the Calvert Fund and the American Funds Insurance Series must precede or accompany this material. You should carefully consider the product's features, risks, charges and expenses, and the investment objectives, risks and policies of the underlying portfolios, as well other information about the underlying portfolios. This and other information is available in the prospectus, which you should read carefully before investing. Product availability and features may vary by state. All product guarantees are based on the financial strength and claims-paying ability of Metropolitan Life Insurance Company. The amounts allocated to the variable investment options of your account balance are subject to market fluctuations so that, when withdrawn or annuitized it may be worth more or less than its original value. Performance current to the most recent month-end may be viewed at [www.metlife.com](http://www.metlife.com).

These figures represent past performance and are not an indication of future performance. The investment return and contract value will fluctuate over time so that a contract would be worth more or less than the sum of your purchase payments. Current performance may be lower or higher than the performance figures quoted, FFA has limitations. There is no guarantee that any of the variable options in this product will meet their stated goals or objectives.

- 1 A Portfolio may have a name and/or objective that is similar to that of a publicly available mutual fund that is managed by the same money manager. These Portfolios are not publicly available and will not have the same performance as those publicly available mutual funds. Different performance will result from differences in implementation of investment policies, cash flows, fees and size of the Portfolio.
- 2 The performance shown may reflect, for some periods described, the management of previous subadvisers.
- 3 Morgan Stanley sponsors the MSCI EAFE® Index, Lehman Brothers sponsors the Lehman Brothers® Aggregate Bond Index, Standard & Poor's sponsors the S&P 500® Index and the S&P Mid Cap 400 Index and Frank Russell Company sponsors the Russell 2000® Index (together referred to as "index sponsors"). Direct investment in the indexes is not possible. The index sponsors do not sponsor, endorse, sell or promote any of the portfolios or make any representation regarding the advisability of investing in the portfolios. The index sponsors have no responsibility for and do not participate in the management of the portfolio assets or sale of the portfolio shares. Each index and its associated service marks are the exclusive property of the respective index sponsors, and references thereto have been made with permission. The Metropolitan Series Fund, Inc. Statement of Additional Information contains a more detailed description of the limited relationship the index sponsors have with MetLife and the Fund.
- 4 Waivers and/or expense agreements are currently in place for this portfolio. These waivers and/or reimbursements of investment management fees and certain fund expenses may be substantial. Please see the prospectus for more information. Such waviers and/or reimbursements have the effect of increasing performance results.

On January 7, 2008 Julius Baer Investment Management LLC succeeded Fidelity Management & Research Company, as subadviser to the Julius Baer International Stock Portfolio which was previously known as the FI International Stock Portfolio.

15

On January 7, 2008 Massachusetts Financial Services Company (MFS®) succeeded Harris Associates L.P., as subadviser to the MFS® Value Portfolio which was previously known as the Harris Oakmark Large Cap Value Portfolio.

16

On April 28, 2008, ING Clarion Real Estate Securities L.P. replaced Neuberger Berman Management, Inc. as the subadviser to the portfolio, which had been known as Neuberger Berman Real Estate Portfolio.

The Met/Franklin Templeton Founding Strategy Portfolio is a "fund of funds" that invests equally in three other portfolios of the Met Investors Series Trust: the Met/Franklin Income Portfolio, the Met/Franklin Mutual Shares Portfolio and the Met/Templeton Growth Portfolio. Because the Portfolio invests in other underlying portfolios, the Portfolio will bear its pro rata portion of the operating expenses of the underlying portfolios in which it invests, including the management fee.

18

Effective April 28, 2008, the MFS Value Portfolio of the Met Investors Series Trust (MIST) merged with and into the MFS Value Portfolio of the Metropolitan Series Fund, Inc. (MSF). Values before April 28, 2008 reflect the performance of the MSF MFS Value Portfolio (formerly Harris Oakmark Large Cap Value Portfolio) since its inception on November 9, 1998. (Note that because the MIST MFS Value Portfolio is deemed to be the "accounting" survivor of the merger, the performance history set forth in the Portfolio's April 28, 2008 prospectus is that of the MIST MFS Value Portfolio.)

On or about April 28, 2008, the Fidelity VIP Overseas Portfolio was substituted with MFS® Research International Portfolio of Met Investors Series Trust (MIST). Fidelity VIP Overseas is no longer available under this product.

**Exchange Traded Funds (ETF) purchases and sales are made on the open market and as such are subject to ordinary commission charges by the Broker/Dealer firm who executes the transaction. Trading throughout the day, the value of an ETF may be more or less than the net asset value of the underlying holdings. Additionally, the spread between the bid and ask prices will cause the price at which you can immediately sell an ETF share you just purchased to be lower than the price you paid for it. There is no guarantee that an ETF will meet the objectives of its underlying portfolio.**

**While diversification through an asset allocation strategy is a useful technique that can help to manage overall portfolio risk and volatility, there is no certainty or assurance that a diversified portfolio will enhance overall return or outperform one that is not diversified. An investment made according to one of these asset allocation models neither guarantees a profit nor prevents the possibility of loss.**

**MetLife Advisers, LLC is the investment adviser to the MetLife asset allocation portfolios. Met Investors Advisory, LLC is the investment adviser to the American Funds asset allocation portfolios. The investment adviser chooses the underlying funding options for each portfolio and the proportions of each underlying funding option within each portfolio. Standard and Poor's Investment Advisory Services LLC ("SPIAS") serves as consultant to MetLife Advisers, LLC for the MetLife asset allocation portfolios. SPIAS does not provide advice to MetLife's underlying clients or have any discretionary authority or control with respect to purchasing or selling securities, and does not act as a "fiduciary" or "investment manager," as defined under ERISA, to any investor. SPIAS makes no warranties, express or implied, as to results to be obtained from the information provided by it, and neither SPIAS nor its affiliates endorse, sell or promote this product or make any recommendations as to the advisability of investing in it.**

**Asset allocation portfolios are "fund of funds" portfolios. Because of this two-tier structure, each asset allocation portfolio bears its own investment management fee and expenses as well as its pro rata share of the management fee and expenses of the underlying portfolios. The Contract Owner may be able to realize lower aggregate expenses by investing directly in the underlying portfolios instead of investing in an asset allocation portfolio. In that case, you would not receive the asset allocation services provided by an investment adviser.**
